

UNIVERSITÄT HOHENHEIM

INSTITUTE FOR AGRICULTURAL ECONOMICS AND
SOCIAL SCIENCES IN THE TROPICS & SUBTROPICS

Managing Director
Professor Dr. Thomas Berger

February 2010

Postdoctoral Position - Land Use, Climate Change and Bioenergy (3 years, full-time)

The **Institute for Agricultural Economics and Social Sciences in the Tropics and Subtropics – Chair for Land Use Economics** searches for a highly qualified candidate at post-doctoral level. The position will focus on research into agricultural land use under climate change with special consideration of long-term adaptation strategies. The candidate will contribute to the joint research efforts of meteorologists, soil scientists, agronomists and agricultural economists at Universität Hohenheim.

We expect experience in interdisciplinary research teams and in combining biophysical and socioeconomic approaches. Background in agricultural or land use science is required; knowledge of computer modeling and linear programming would be an asset.

The successful candidate will be based in Stuttgart, Germany, and become member of an international research team (working language English). The position involves travel to project sites in Germany and overseas plus supervision/teaching at BSc/MSc level. The initial appointment is for one year but can be extended up to three years by mutual consent. The salary is around EUR 47,500 (gross including social security) depending on family status and qualification. More information can be found at <http://www.uni-hohenheim.de/i490d> under "ongoing projects."

Electronic applications including CV, transcript of academic record, plus contact details of at least two referees should be submitted to:

Email: i490d@uni-hohenheim.de

Subject: Postdoc

The **position is open from 1 April 2010** and will be filled once a suitable candidate has been identified. Only short listed applicants will be contacted. Universität Hohenheim is an equal opportunity employer; female researchers are strongly encouraged to apply.
